Notes

Once you hit Save, your iPhone will verify your connection and then return you to the screen with your list of emails.

Note: Mail should be turned on by default. Notes can be turned off.

Having problems?

Try turning your phone off and on. A restart can often reset your software and eliminate connection issues.

Ensure that you're connected to the internet either by WIFI or cellular.

Apple has some great help resources online. Have a look at their iPhone email support page here: <https://www.apple.com/ca/support/iphone/email/>

If you need assistance, please submit a support ticket at silverbarrel.com/helpdesk.
